PONE-D-23-20328
A 10- year risk of developing a cardiovascular disease and its predictors among HIV patients receiving antiretroviral therapy in rural Tanzania: a cross sectional study

Dear Lindayani,

Thank you for considering the invitation to review the manuscript referenced above. In an effort to provide the authors with a timely decision, we are working to progress this manuscript to the next stage of the editorial process. As this is the case, your comments will no longer be required. We apologize for any inconvenience this may have caused you and thank you for your time. If you have any questions, please contact us at plosone@plos.org.

Best wishes,
PLOS ONE
